

CURRICULUM VITAE

JAMES REEVES

Full Name James Reeves
Born 1967
Qualifications BA (Hons), MA, MCIHT
Profession Transport Economist
Present Position Technical Director, Gifford
Member, Gifford LLP

Outline

James has almost 20 years experience as a professional economist, mainly in the fields of transport planning and economics. He specialises in scheme appraisal, strategy development and institutional strengthening both in the UK and overseas. He has completed the economic appraisal of a range of schemes including road and rail investments, integrated transport schemes and new transport services, as well as road rehabilitation and maintenance programmes. He is familiar with a range of economic appraisal techniques and has undertaken a range of appraisals, using both NATA and other appraisal frameworks.

He is experienced in transport scheme appraisal using HDM III, HDM4, RTIM3, RED and COBA. He also has knowledge of the use of modelling packages including EMME II, SATURN and TRIPS. He has completed a range of financial and economic appraisals, including contributing to due diligence. He is experienced in the use of quantitative and qualitative risk analysis using Monte Carlo simulation techniques.

James is an experienced project leader, with particular understanding of the difficulties in bringing together multi-disciplinary teams. This experience has been developed on a wide range of projects, both in the UK and overseas. These studies have required the completion of multi-disciplinary feasibility studies, the development of institutional strengthening programmes, and the assessment of financing requirements for transport, amongst others.
