

Peter Forbes

Air Transport Economist

Qualifications:

BA (Hons) Economics with Mathematics, Sussex University
Postgraduate Diploma in Business Studies, Sheffield University

Affiliations:

Member of the Royal Aeronautical Society (MRAeS)
Member of Chartered Institute of Transport (MCIT)
Member of British Institute of Management (MIMgt)

Fields of Special Competence:

Peter Forbes has over 20 years' experience in air transport planning and consultancy both in the UK and overseas. Previously employed in senior management positions at British Caledonian Airways and the UK Civil Aviation Authority, he is now Director, Alan Stratford and Associates, one of the UK's leading specialist air transport consultancy firms.

His consultancy work has included policy analysis, traffic forecasting, new route evaluation, and the financial and economic appraisal of a variety of airport, airline and ATC infrastructure developments. He has also worked on secondment to the European Commission in Brussels, where he acted as an air transport adviser to the EC's Tacis Programme. He has presented papers at various international aviation conferences and has contributed to several BBC television and radio programmes on aviation issues. The details of projects in which Peter has had significant responsibility are listed below:

Examples of recent consultancy projects:

- The Development of Sustainable Aviation in the London area, GLA
- Study on Airport Competition in the EU, European Commission, DG TREN
