Key experience

Tim Powell has worked for 35 years as a consultant specialising mainly in transport planning, economics and policy. He was for many years a Director of Coopers & Lybrand Associates, responsible for the firm's transport sector studies. Prior to joining Coopers & Lybrand he spent some seven years as Chief Economist with Freeman Fox Wilbur Smith & Associates, a major firm of transport planning consultants. In 1988 he set up his own company Transport Advisory Services Limited. Tim's experience covers all main modes of transport, both in developed and developing countries. Particular skills/interests.

Policy formulation in the transport sector.

Economic and financial appraisal of transport investment and policy

Training in transport economics and policy.

Railway policy and finance

Country experience

Experience in most parts of the World

Languages

English, Spanish (speak/read), French (read)
